## ABOUT ME

---

I am an Interior Design student at the College for Creative Studies with a strong foundation in creative problem-solving, visual storytelling, and human-centered design. I thrive in collaborative environments and bring a detail-oriented, research-driven approach to every project. My work blends functionality with compelling aesthetics, drawing inspiration from art, culture, and mid-century modern design. With experience in concept development, 3D modeling, and digital rendering, I'm passionate about creating spaces that are thoughtful, engaging, and accessible. I'm continually expanding my skills and excited to contribute fresh ideas and dedicated craftsmanship to innovative design teams.
